## Pittsburgh Area Hoping For News Of End Of Strike

Revived Feeling Of Optimism Is Prevalent In District Hit By Steel Tieup

### SMALL BUSINESS SEEKS RELIEF

By JAMES L. KILGALLIN  
(U. S. Staff Correspondent)

PITTSBURGH, Feb. 8.—(INS)—A revived feeling of optimism that the nation-wide steel strike will be settled soon today pervaded the Pittsburgh area.

A "break" in the deadlock negotiations at Washington was expected at anytime.

### Stand For 18% Boost

Union executives in Pittsburgh indicated their confidence that CIO President Philip Murray, in his talks with government officials, has not backed down in his insistence that the strikers be granted an 18%—cents an hour pay boost.

Failure of negotiations in Washington would result in keen disappointment in the steel regions in view of built-up expectations that early settlement of the walkout is near.

Warning was given, however, that unless the wage-price formula for the steel industry takes into account the small steel-making companies of the country, it will mean "ruin" to some 100 of these firms.

### Warning Sounded

The warning was sounded by the non-integrated steel manufacturers in a telegram to President Truman. The telegram was signed by Lauson Stone, president of the association and head of the Follansbee Steel corporation.

Stone's telegram said in part:

"It must be recognized that higher wage rates mean a much greater cost burden to the smaller companies since for the most part these smaller companies produce steel products in which the labor already is a larger factor than in basic steel products."

"Failure to recognize the problem confronting these small steel manufacturers will be to forest the traditional influence of small American business."

## PA NEW OBSERVES

Today marks the beginning of the observance of Boy Scout week. Special programs will feature during the entire week.

Results of the Victory Clothing campaign in Lawrence county, as announced today, were far ahead of the expectations of those who were directing the campaign. The goal was far exceeded due to the great response of the community.

In striking contrast to weather conditions of a year ago, almost spring-like conditions existed in this locality today. There was even a report of birds singing in the trees in some parts of the city.

At one North Hill home yesterday a commotion was heard on the back porch. Investigation revealed that a large squirrel had made a visit to the porch, and apparently was willing to wait around until the householder provided some winter rations. It appeared to be quite tame.

An idea of the serious situation confronted by persons seeking homes is to be noted in advertisements in The News classified section. One would-be tenant offered \$25 for information leading to renting of a house, and today an offer of a dozen pair of nylon stockings as an inducement for such information.

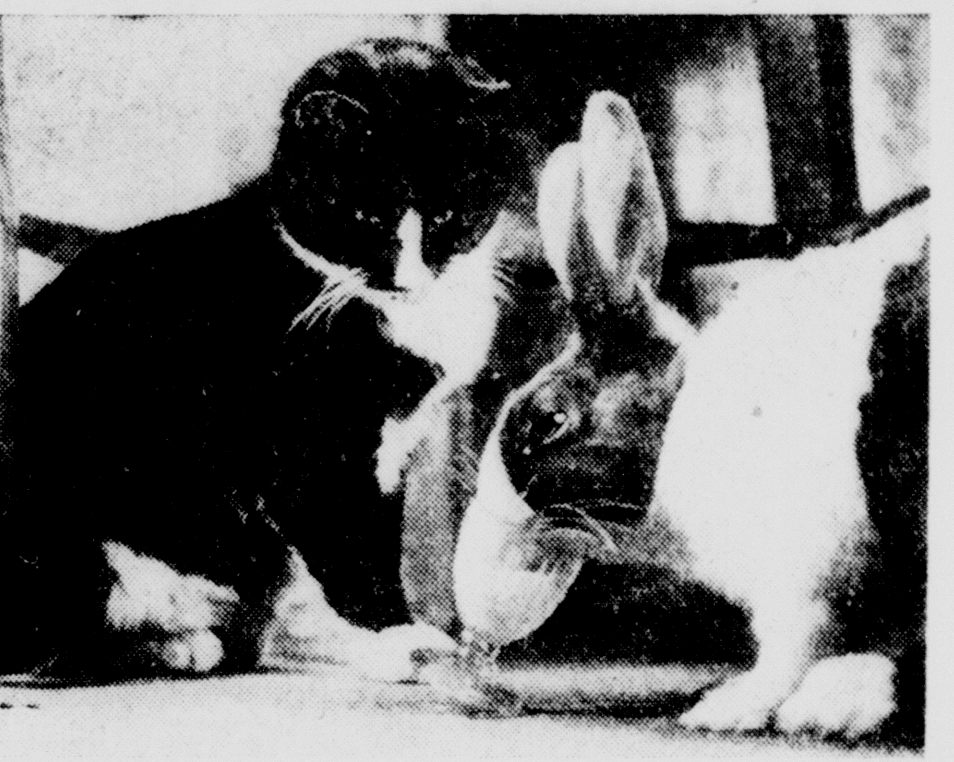

Pa. News marvels at how some of the cars seen on the city streets passed the recent inspection of cars required by the state, which period just closed. Many of the automobiles, which carry brand new inspection seal, display broken headlights, broken windshields and other damaged parts.

### Daily Weather Report

United States weather statistics for the 24-hour period ending at 9 a. m. today follow:  
Maximum temperature, 39.  
Minimum temperature, 21.  
Precipitation, traces snow.  
River stage, 5.8 feet.

Statistics for the same date a year ago follow:  
Maximum temperature, 35.  
Minimum temperature, 30.  
No precipitation.

## MINKY AND BERTIE SHARE A GLASS

Pictures like this could be made all day long in the London home where Minky the cat and Bertie the rabbit live happy lives as the pets of Robin Bradberry, 9. Each just a few months old, they play together and sleep together—and even eat together, as above, where you see Bertie tipping the glass to get the last good drop of that milk.

## Tugboat Strikers Confusion Is Vote On Proposal Occasioned By Food Program

NEW YORKERS HOPE FOR END OF STRIKE WHICH HAS FORCED MANY RESTRICTIONS

NEW YORK, Feb. 8.—(INS)—Striking tugboat and barge men whose five-day old walkout has brought worse than wartime restrictions on the world's largest city, began balloting today on a compromise wage proposal expected to end the tieup.

The men, whose strike has left New York City almost without fuel reserves and brought a resumption of the wartime brownout plus the closing of many public buildings, began casting their ballots on whether to return to work shortly after 8 a. m. EST.

### Expect Favorable Vote

Results of the voting, which union leaders predicted would favor acceptance of the proposed new wage scale and end the strike, will be announced as soon as the voters are counted shortly after the polls close at 4 p. m. EST.

Early voting was orderly, quiet and light. The men began strolling into union headquarters shortly after the polls opened singly and in small groups.

## MOTHER, TWO CHILDREN DIE AS HOME BURNS

ADRIAN, Mich., Feb. 8.—(INS)—A 34-year-old mother and her two children died in a fire which swept their Weston, Mich., home early today.

The victims are Mrs. Grace Southwell, 34; her daughter, Carol Ann, 9; and son Wayne, 2.

Firemen said the father, Fred, futilely attempted to reach his family.

Southwell told Deputy Lee Harrington he was awakened by smoke and went downstairs where he discovered the blaze.

He said he tried to get back upstairs to warn his wife and children but the fire spread too swiftly. The father made another attempt by climbing a porch roof but it also failed.

## Two Gunmen Held By Police, Robbed Place Near Butler

PITTSBURGH, Feb. 8.—(INS)—Pennsylvania police today said that Peter Revty, escaped Pittsburgh convict, and Joseph Karolski were identified as two of the three gunmen who robbed the Plainview Inn near Butler of \$600.

Revty and Karolski were captured in Pittsburgh Wednesday night after an allegedly stolen car which Revty was driving crashed into a gasoline truck while fleeing State Policeman R. A. Shelloz.

Revty escaped from the Farview hospital for the criminal insane four months ago after being convicted of shooting a policeman near Bedford.

## Anti-Strike Bill, Passed By House; Now Up To Senate

Administration Looks To Senate To Block Enactment Of Proposed Bill

WASHINGTON, Feb. 8.—(INS)—The administration looked today to the Senate to block enactment of the House-approved Case anti-strike bill with its sweeping provision for coping with labor disputes.

Democratic leaders were confident that if the Senate adopted the measure which the House passed by a vote of 258 to 155, it will be vetoed by President Truman.

The Case bill, which a Republican-Democratic coalition supported in the House, now goes to the Senate committee on education and labor, a majority of whose members is decidedly cool to the enactment of drastic labor legislation.

### Studying Own Legislation

Instead, the committee is studying its own legislation, on which hearings have been underway for weeks. It is expected to approve a measure designed to strengthen government conciliation and mediation services.

Sentiment in the committee and in the Senate appears to be as opposed to the President's proposals for fact-finding boards as was that in the House, where the administration bill was supplanted by the Case measure without even the courtesy of a vote.

Sen. Murray (D-Mont., chairman of the labor committee, has announced that he hopes to have a bill out for Senate consideration by mid-February, but there was no indication that speedy action would follow.

## Got Instructions To Show Messages To Harry Hopkins

Navy Captain Kramer Reveals He Was Told To Show Hopkins Secret Messages

WASHINGTON, Feb. 8.—(INS)—Navy Capt. Alvin D. Kramer revealed today that on two occasions in 1941 he was instructed to show the top secret intercepts of Japanese messages to the late Harry Hopkins, then in a hospital.

Kramer told the Pearl Harbor committee under questioning by Sen. Ferguson (R-Mich.) that he delivered and discussed with Hopkins folders of the "magic" intercepts on instructions of Adm. Harold R. Stark, then chief of naval operations.

Ferguson wanted to know if Hopkins was the only civilian outside the army and navy who saw the secret intercepts.

Kramer pointed out that Navy Secretary Knox and various State department officials who saw the intercepts regularly—such as Undersecretary of State Welles, Stanley Hornbeck and Maxwell Hamilton—the latter Far Eastern experts—also were civilians.

## Expect Governor To Announce His Senate Position

HARRISBURG, Feb. 8.—(INS)—A special press conference will be held by Gov. Edward Martin this afternoon when it was expected he will disclose whether he will be the Republican candidate for the U. S. Senate.

It was considered significant that the governor scheduled the 4 p. m. meeting with newsmen on a day when press conferences usually are not held.

He had promised to announce his decision prior to tomorrow, the first legal date for securing signatures on nominating petitions.

The Republican rank and file has urged the governor to enter the contest and has backed up the plea with stacks of petitions.

## Warren Young Man Dies Of Injuries

WARREN, Pa., Feb. 8.—(INS)—Paul McCoy, 23, of Warren, died today of a fractured skull received last Sunday when an auto in which he was riding sideswiped a parked truck at Sheffield.

Frank J. Vronka, Jr., 21, driver of the car, reported to state police that frost on the windows had obscured his vision.

## Corregidor Veteran Re-enlists In Army

NEW YORK, Feb. 8.—(INS)—Sgt. Irving Strobbe, the 26-year-old Brooklyn radio operator who tapped out the last historic messages from Corregidor in May, 1942, has re-enlisted for another three years in the army.

Sgt. Strobbe, now on furlough, said at his home today:

"I liked the army six years ago, and I like it now. I intend to spend my full thirty years in the service."

Of his six years in the army, the soldier has spent more than half in Jap prison camps. He re-enlisted January 22 at Fort Dix, N. J., and plans to go to signal corps school.

Strobbe's starkly dramatic messages, tapped out as the Japs were pounding Corregidor incessantly and Gen. Jonathan M. Wainwright was preparing to surrender, were received in Hawaii by Sgt. Arnold Lappert. One of the last said:

"I know now how a mouse feels, caught in a trap waiting for guys to come along and finish it up. Got a treat. Canned pineapple opening it up with signal corps knife."

In his final communication, Strobbe asked that his mother, Minnie, be notified. Then all was silence. For more than two years his family did not know whether he was alive or dead. Finally word came that he was held in a Jap prison camp. Last fall, after his release from the camp, he was sent home for discharge.

## Clothing Drive Is Huge Success In This County

Articles Collected Total 144,900, Surpassing Fund-Hopes Of Drive Officials

Victory Clothing Collections have ended. The last box was loaded on the car Tuesday afternoon, February 5, and the drive succeeded above all expectations.

Many argued that because the collection executed last April was so large the people of Lawrence county had given most of their garments at that time. Persons who harbored such thoughts were disillusioned. The drive just completed almost equaled that of last April. The result speaks volumes for the sympathy the people of the county have for the suffering peoples of the earth. Residents have demonstrated an overwhelming generosity in their substantial gifts of clothing and shoes.

### Thank All Again

Again, Austin Webb, general chairman of the drive, wishes to extend his thanks to everyone who has made a contribution to this effort. However small or large the donation it was helped to put the campaign over the top in convincing

## Check List Of Survivors Of Grounded Ship

SEWARD, Alaska, Feb. 8.—(INS)—Coast guardsmen rechecked passenger and crew lists today to determine whether seven people are missing from the wreck of the Alaskan liner Yukon.

The latest tally indicated that 491 passengers and crew members were aboard the ship when it sailed from Seward for Seattle Sunday night. The army and steamship company have changed their totals several times, and the coastguard looked for other mistakes in the belief that they may account for people now unaccounted for.

Some survivors said they saw dead bodies in the water.

## Countess Seeks Prison Release

DETROIT, Feb. 8.—(INS)—Countess Grafin Marianna von Moik, who was sentenced in 1944 as a member of a spy ring, is petitioning for a writ of habeas corpus in an attempt to obtain a release from prison.

The 46-year-old German-born countess and naturalized citizen charges her imprisonment was illegal and in violation of the U. S. constitution. She was sentenced in Nov. 1944 to serve four years in prison after the confessed being a member of the infamous Detroit spy ring.

## PITTSBURGH CAFE PATRONS ROBBED

PITTSBURGH, Feb. 8.—(INS)—Five gunmen were being sought by police today after they lined up 10 patrons of a cafe against the wall and robbed them of \$106 in cash.

Bert Ober, manager, said the five bandits walked into the cafe and ordered all against the wall. While two held guns on the customers the other three searched them.

## Expect 64,000 U. S. Troops To Reach Europe This Month

FRANKFURT, Feb. 8.—(INS)—U. S. headquarters announced today that 64,000 troops are expected to arrive in the European theatre this month and 36,000 next month.

The arrivals are expected to wipe out the deficit caused by war department redeployment speedup measures.

## Murder Of Girl Baffles Police

Columbia, Mo., Authorities Seek Clues In Brutal Slaying Of Young Woman

MARY LOU JENKINS

COLUMBIA, Mo., Feb. 8.—(INS)—Columbia authorities concentrated their search today about the home of Mary Lou Jenkins in efforts to solve the brutal sex slaying of the pretty blonde apprentice school teacher.

Officers said the 20-year-old Miss Jenkins was criminally assaulted and then strangled with a 30-foot length of electric cord in her home Tuesday night.

Columbia police and state troopers carefully went over every foot of the properties adjoining the Jenkins home.

Earlier, police said they believed the slaying was a premeditated crime. The officers based their belief on the finding of a light bulb, which had been unscrewed from its place, on the front porch of the Jenkins home.

### Robbery Ruled Out

A search of the home and premises ruled out a robbery motive, according to police.

The girl's nearly nude body was discovered by her mother, Mrs. Jack Jenkins, early Wednesday.

Mrs. Jenkins, a nurse, had attended a patient all night at a home less than 100 yards from where her daughter was slain.

Police awaited a report from chemical laboratories in Jefferson City, Mo., on specimens of hair and skin found clutched in Mary Lou's hands. The girl's fingernails were torn, indicating a frantic struggle.

Miss Jenkins was a recent graduate of Stens college, a school for girls in Columbia. She studied to be a teacher, and had completed graduate work for a local teaching position only a few days before her death.

## Court To View Plant Picketing

Injunction Hearing Is Halted So Court And Counsel Can Look At Picketing

PITTSBURGH, Feb. 8.—(INS)—Judge Frank P. Patterson halted the hearing of the Jones & Laughlin Steel Corporation's injunction suit today so he and counsel for both sides could view picketing at the company's Pittsburgh plant.

All parties concerned made preparations to leave the courthouse by automobile.

Before recessing court until 1:30 this afternoon, Judge Patterson indicated he thought the present proceedings might be "fruitful." He said a settlement of the steel strike is impending, as the newspapers indicate, it might be a great fortuity for us to proceed with this hearing."

## Truman Not To Leave Capital For Trip South

Change In Plans Is Necessitated By Nationwide Strike Situation

NO ANNOUNCEMENT ON STRIKE STATUS

By PHILLIPS J. PECK  
(U. S. Staff Correspondent)

WASHINGTON, Feb. 8.—President Truman today suddenly canceled his scheduled trip to Florida next week because of the nationwide strike situation.

The White House announced the president's change of plans as follows:

"Because of the immediate critical situation involving problems requiring his personal attention the president has decided not to leave Washington at this time."

"The president has canceled his trip to Florida and the trip had planned to take in southern waters."

### Arouses Speculation

The sudden decision to cancel the Florida trip immediately aroused speculation as to whether the hoped-for settlement of the nationwide steel strike had struck another impasse.

The president said at his news conference yesterday morning that he would announce a new wage-price formula either today or tomorrow which he hoped would bring an end to the nationwide strikes now paralyzing the nation's reconversion.

Mr. Truman also told the news conference yesterday that he would go to Florida Monday regardless of whether the steel strike was settled or not.

There was no immediate further indication from the White House as to the status of the president's expected new formula for solution of the steel strike. There was also no comment on the bearing of the president's decision to cancel his Florida trip on the strike situation.

### Regrets Disappointment

The White House statement canceling the trip to Florida, which the president was to have begun Monday morning, continued:

"The president particularly regrets that he must disappoint the

## Treasure Ship Ready To Sail

Ship In Philadelphia Port Reported Loaded Down With Coin Cargo

PHILADELPHIA, Feb. 8.—(INS)—A heavily-guarded "treasure ship" lay in the port of Philadelphia today, reportedly loaded down with a cargo of \$1,500,000 in silver 30-cent pieces destined for Saudi Arabia.

The strange consignment was reported aboard the freighter Grinnell Victory. The coins purportedly were recently struck off at the Philadelphia mint and were said to be lend-case pieces headed for King Abdul Aziz Ibn Saud, monarch of Saudi Arabia who was once given a wheelchair as a gift by the late President Roosevelt.

Shipping spokesmen declared the ship would leave Philadelphia today or tomorrow for seven Persian Gulf ports. In addition to the coins, the Grinnell Victory also was said to be carrying 25 brand new Packard automobiles, 30 new Fords, commercial tractors and a quantity of sugar. The vehicles were reported consigned to an American oil company in Arabia.

Because the bureau of customs still maintains censorship on the activities of vessels in American ports, official circles refused comment on the ship's cargo or itinerary.

## Will Allocate Units Of Guard

Key Officers To Meet Today  
To Designate Locations  
Of National Guard

HARRISBURG, Feb. 3.—(INS)—Key officers will meet at Harrisburg today to "tentatively allocate" units of the Pennsylvania National Guard to cities after it is returned to the commonwealth.

Brig. Gen. Edward J. Stackpole, of Harrisburg, who was named by Gov. Edward Martin to supervise reorganization of the unit, said "A number of selected officers" would attend the meeting.

"The meeting is to tentatively allocate units of the 28th division to communities," Stackpole said. "We know that we will get the 28th division, an anti-aircraft brigade and a number of air corps units."

Tentative plans have been made to expand the pre-war guard of 13,000 men to a peacetime force of approximately 40,000 troops, he added.

Communities which had guard units prior to the war were fairly certain of receiving outfits under the plans, Stackpole said.

He explained that some communities may not receive the same units as they had before World War II.

## Office Fails To Raise Salaries By Fee System

GREENSBURG, Pa., Feb. 3.—(INS)—Westmoreland County Solicitor Howard Whitehead today was investigating Prothonotary Leo Sukala whose office allegedly failed to earn enough fees to meet its January payroll.

The office's deficit for the month was understood to be \$700 and that Sukala's payroll was running approximately \$2,500 a month higher than it ran under the previous administration.

Whitehead said he would submit an opinion to the county commissioners at their regular weekly executive meeting tomorrow. It was reported that the commissioners will act to withhold the salaries of Sukala and his chief deputy Patsy N. Riehl, until the deficit is cleared.

Westmoreland's prothonotary office is required by law to earn enough fees to defray its expenses.

## Thousands Of Armed Japs In North China

PEIPING, Feb. 8.—(INS)—The presence of thousands of armed Japanese in North China today still presented a potentially explosive situation.

American, as well as Chinese Nationalist and Communist members attached to headquarters of the tripartite executive commission, were made jittery by the situation as they sought to bring peace to the turbulent North China area.

In the important coastal province of Shantung, Japanese figures showed more than 30,000 Jap soldiers retain their guns and ammunition.

Communist General Chen Yi is demanding the right to disarm these Shantung Jap armies. He contends that Nationalist troops charged with disarming the Japanese are puppets of the Japs reorganized into Pseudo Chinese Loyalists.

General Chen also demands the right to disarm the Nationalist troops claiming they fought the Japanese and called themselves loyal to Chiang Kai-Shek only after the Jap surrender.

## BIGGEST STEEL USER

NEW YORK.—(INS)—The ship-building industry was the largest user of steel during the war—consuming more than 35 million tons, records disclose.

## Cupid Is Reconverted But Pursues Same Old Strategy

PITTSBURGH, Feb. 8.—(INS)—well that come next Thursday, February 14, it's valentine day.

In the past, valentine day was pid has switched from wartime to the piping days of peace. And he is one guy who is not troubled by strikes or lockouts.

Dan is out of military uniform after four long years, but he's still shooting those same old-fashioned arrows. And from all accounts his marksmanship is just about as devastating as atomic bombs.

Store officials say that the 1946 crop of valentines are being purchased with the same avidity as a pound of butter or a pair of nylon socks.

For if you're not an old-maid or an old foggie, you know full well that come next Thursday, February 14, it's valentine day.

In the past, valentine day was something exclusively for lovers. But this year the cards are appropriate for any sentiment of affection, be it torrid, tender or like-warm.

Cards For All  
There are cards for mother and even dear old dad, as well as for wife or sweetheart, but just as in the past, the lacy and sentimental valentines are still the most popular.

And who is it making the greatest clamor for the hearts and flowers stuff?

Why it's the former GI Joe. These battle-hardened vets are the softest touch for the drooley cards, the clerks say, and don't even blush when they step up to the counter and ask for such "sissy" stuff as cards with titles "darling", "to the one I love" and such. For a heart is still a heart, whether it beats beneath a combat infantry badge or pilot's wings or a shiny discharge button.

It hasn't taken Dan Cupid long, either, to get right into the groove. Some of today's cards show the little fellow "to be definitely 'hep'. Even the solidest 'gate' has nothing on him and bobby soxers are sure to swoon over his new approach: "Hi! Sick chick, you send me valentine and listen, little piece, you're definitely stuff!"

No matter whether the light of your life is a "square" or a "solid-sender", he or she will "dig" the idea.

The idea is of course, "I love you"—oops, we meant "you're groovy!"

### New Castle Missionaries Back In French W. Africa

In a letter sent to William Alexander, 27, Pearson street, Misses Cecelia Lewis and Sallie P. Botham, residents of this city and missionaries to French West Africa, relate their breath taking and very uncomfortable ride they experienced from the coast of Africa to the interior of the country, where their mission compound is located.

"We left Dakar by plane, Sunday, Dec. 23, at 7:30 a. m. It was not an up to date plane they told us 'it was out of date 10 years ago'. We had 19 passengers and after 55 minutes ride, we landed at what they called an airport (?) out in the boiling sun, no shelter and no water to drink. After a half hour shelter under the plane's wing, we took off and it was a very rough trip and shook us so, we thought we would lose the fillings out of our teeth. After five and a half hours of this, we landed at Bamako, very sick indeed. They took the passengers to a hotel (?) in a very rickety bus. They took us to a room—such a room, such beds!"

**Meet Other Missionaries**  
Continuing on in the letter, the local missionaries related that sometime later, they arrived at Kankan, Africa, where they were greeted by some American missionaries who took them off to their mission station in automobiles which was much better riding than their trip by air. Spending Christmas eve at this latter place, Misses Lewis and Botham told of the primitive Christmas service enjoyed by all followed by chapel services in the morning. Christmas dinner was enjoyed by 14 of the missionaries banded together.

Finally arriving at Faranah, their own station, the local women portrayed the wild excitement that reigned among the natives upon their arrival. They came with every manner of gift, including rice, chickens, and chickens.

According to the letter, the trunks of Misses Lewis and Botham have arrived, but it will be months before they can get them and then

## Gen. Arnold Now Saying Farewells

Will Be Succeeded In Post  
By Gen. Carl Spaatz On  
February 15

WASHINGTON, Feb. 8.—(INS)—Gen. H. H. Arnold today started bidding an official farewell to arms. The snow-haired general, who saw the United States air arm grow from a fledgling force of two planes to the mightiest armada in world history, by no means will say goodbye to his active interest in aviation, however.

Arnold is scheduled to begin his round of farewells to the military

service after nearly forty years, with an informal talkfest with Washington newsmen. He has been AAF chief since 1938.

A War Department memo pointed out that the meeting is personal. Reporters were requested to ask no questions concerning future air force policy.

Arnold's successor, Gen. Carl "Toey" Spaatz is known to be preparing blueprints for reorganization of the AAF along peacetime lines. The plans anticipate unification of the armed forces giving the air force equal status with the army and navy.

Spaatz, a native of Boyertown, Pa., is expected to take over the top aviation post on February 15.

## Brides En Route Here To Disembark Today

Wife Of One Local Soldier May Not  
Be On Ship, Family Learns  
This Week

English brides of two local servicemen, slated to arrive in New York harbor today aboard the Queen Mary, are being eagerly awaited by their families-in-law here in New Castle, according to the county Red Cross chapter.

One family, that of Sgt. Jack Groucutt of Friendship street, is still uncertain about the arrival of the sergeant's wife, Mrs. Betty Groucutt, who wrote shortly before the Queen Mary left England that she was not coming this trip. Mrs. Groucutt's name was included, however, on the list received by the local Red Cross chapter.

Mrs. Betty Butia, wife of Pvt. Joe Butia of Volant, is also arriving on the big British ship today. Her husband is now at the England General hospital in Atlantic City, N. J.

## Seek To Avert Transit Strike In Philadelphia

PHILADELPHIA, Feb. 8.—(INS)—The Philadelphia Transportation company today awaited union action on its suggestion to turn over a wage dispute to an arbitration board of three in an effort to avert a transit strike scheduled for Monday.

The major union in the fight for

a \$2-a-day wage boost—CIO Local 234 of the transport workers which breaks 9553 operating and maintenance workers—look no immediate action on the proposal.

Another union—AFL Local 187, or the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers, which represents 800 non-operating employees, however, remained adamant in its stand not to arbitrate until the company states how much it seeks to increase fares to the public.

## Returning Vets Are Forgetful

Neglect To Bring Along Original Discharge Papers When Reporting To Draft Boards

About nine out of every ten returning veterans who report to their respective Selective Service boards as the last act of separation from the armed forces forget to bring along the original discharge papers, and have to make a trip home to get them, the officials of Selective Service Board One have found.

They only bring Form 53 from the Army or Form 553 from the Navy, which is a record of service, thinking that this will be sufficient. Many men also come to the offices of the board to check out on find the offices closed. The Selective Service Board offices have been closed on Saturdays for several months now.

## Small Plants Ask For Action

President Is Told Small Manufacturers Need Wage-Price Consideration

PITTSBURGH, Feb. 8.—(INS)—The small manufacturer—the fabricator and non-integrated steel maker—today saw ruin for hundreds of firms unless they were taken into consideration in the wage-price increase.

Some foresaw plants moving to other sections of the country where wage rates are comparative to comparative business.

The non-integrated steel manufacturers in a telegram to President Truman warned that many of their plants will be forced out of business unless they are given an increased selling price.

Meanwhile, representatives of the small manufacturers council were scheduled to meet with President Truman and Reconstruction Director John W. Snyder and "iron out" their problems in the steel price-wage increase.

**Seek Separate Action**  
The delegation, headed by President Birger Engstrom, will seek to have their problems definitely separated from the basic steel industry, Engstrom said.

"Any adjustments in steel prices and wages must be compensated for by increased selling price before commitments on wage adjustments are made to employees."

Non-integrated steel manufacturers' President Lauson Stone warned President Truman: "Most of the small manufacturers have been operating at a loss since V-J Day. It must be understood that higher wage rates means a greater cost burden to the smaller companies since many of these firms produce steel products in which labor already is a larger factor than basic steel."

## Plans Free Lance Ambulance Service

Pittsburgh Man Intends To Carry Over Army Training To Civilian Service

PITTSBURGH, Feb. 8.—(INS)—Jack Gilliam, Pittsburgh, will find a lot of unwilling customers in his new business—they will have to suffer physical misfortune before he can serve them.

The 21-year-old ex-GI intends to carry over his Army training into civilian life by establishing a free lance ambulance service.

With the Fourth Air Force on the West Coast, Gilliam served as driver of a crash ambulance and was often called upon to rush to the scene of plane crashes.

Of handling crash victims, Gilliam said: "You couldn't tell what you were going to have to do, but you always had to do it fast and do it right."

The young ex-private expects his business to come from hospitals and mortuary establishments.

The idea for his new business came from a friend, Walter Butler, who was serving as an autopsy technician in a hospital in which Gilliam was confined with leg injuries. Butler said he knew of many opportunities for a free lance ambulance operator when morticians and hospitals had more calls than they could handle.

## Jay Cooke May Get Support For GOP Nomination

PHILADELPHIA, Feb. 8.—(INS)—Jay Cooke, Philadelphia banker and veteran of two wars, was regarded today in Philadelphia Republican circles as a five-to-one choice to receive the GOP organization nod for the gubernatorial nomination.

Impetus to the Cooke slating was touched off when the wounded veteran "clarified" a statement made last week which had been regarded as a declaration that he was not to be considered in the race for the nomination.

## Seven Discussed As Democratic State Candidate

HARRISBURG, Feb. 8.—(INS)—Seven prominent Democrats emerged today as possible candidates for the gubernatorial nomination as party chieftains scheduled another conference at Harrisburg, February 14, to consider a ticket for the 1946 election.

"We didn't agree on any candidate," State Chairman J. Warren Mickel said following a conference of top party leaders. "That wasn't the purpose of the meeting."

### Discuss Candidates

"The Democratic party doesn't make endorsements under its rules," he added. "I called this group together for the purpose of discussing possible candidates and I have called a meeting for next Thursday for a further discussion of candidates."

Mickel explained that only seven men were discussed by officials as possible gubernatorial candidates but added that the door was open for consideration of other names at the next meeting. Those considered yesterday were:

Auditor General G. Harold Wagner; Allegheny County Commissioner John J. Kanes; Dean Earl G. Harrison, of the University of Pennsylvania; Judge Curtis Bok, Guy K. Bard and Grover C. Ladner, all of Philadelphia; and Judge Michael J. Egan, of the Lackawanna County Common Pleas Court.

"If a ticket is agreed upon by this group then they in turn would simply suggest the names to the Democratic voters of Pennsylvania," Mickel explained.

LONDON, Feb. 8.—(INS)—A Moscow radio broadcast reported by Reuter said today the Vatican "does not miss a single opportunity of trying to sow discord between the USSR and its allies."

Criticizing recent papal references to the Ruthenian church, the broadcast added:

"The present behavior of the Vatican is the logical consequence of its attitude during the war."

# Home Mortgages Are Discussed By Babson

By ROGER W. BABSON  
(Copyright, 1946, Publishers Financial Bureau, Inc.)

BABSON PARK, Pa., Feb. 8.—Mortgage money is cheaper today than ever before in the history of the United States. Even the Co-operative banks, which have charged six per cent ever since their organization years ago, are now loaning money at four per cent. Moreover, the terms are very much easier than ever before. During the years preceding the last depression home mortgages were written for from three to five years as a maximum. Now the borrower can be accommodated by mortgages written for 20 years, or perhaps even longer.

**Cost Of Building**  
Although it is much easier to borrow money today than during pre-war days, the cost of home building now averages about 50 per cent higher. However, the carrying charges at four per cent on a house costing \$7500 are no greater, in total, than the carrying charges at six per cent on a house costing \$5,000 in pre-war days. Hence, this is a good time to plan a new home. Surely the land should be purchased at once.

The very fact that money rates are very low and building costs are high makes mortgages less attractive to the lender. In fact, I see little inducement for private individuals to loan money on mortgages at this time unless they do it to help the sale of property which they desire to unload. As a cold business proposition, I should hate to tie my money up for 20 years at three and one-half or four per cent interest. This is why I am bullish on most high grade, long-term bond issues.

**"Packaged" Mortgages**  
Borrowers have another advantage today in many communities. I have just noticed an advertisement by the First Federal Savings and Loan Association of New Haven, Conn., offering to "loan money for building and equipping a home with all mechanical conveniences for comfortable living." This includes insulation, cooking range, refrigerator, washing machine, garbage disposal, ventilating fan as well as complete heating and lighting equipment and the latest plumbing fixtures. I understand that some banks are even including air conditioning.

Up to the present time, when these electrical appliances were available, it has been possible to buy them on installments, running over about 18 months. This, however, has been a heavy burden on young people. Now under "packaged" mortgages, all these brand new appliances can be included with the original cost of the house, and paid for over a pe-

riod of 20 years. Furthermore, this program is much more convenient to the borrower because he is dealing with and making payments to only one concern, namely the bank, instead of to several local dealers. I estimate the cost of such equipment would add only about 60 cents a month for every \$100 worth bought on the above basis.

To keep the house up-to-date, these "packaged" mortgages allow for replacement of appliances and provide payments therefor by the addition of a few cents to the above-mentioned monthly figure. It should also be remembered that under such a program the cost of the appliances is considerably reduced as the agent's commissions are either eliminated or cut down to a nominal figure. Whether or not your bank will pay for your electrical appliances, it will take your mortgage on a monthly payment basis which will include payment of taxes, insurance premiums, legal title fees and other expenses. All of this amounts up to no more than you are now paying for rent. Moreover, under this new system you will some day own your own home outright without any more payments.

**Pullish On Electrical Companies**  
When I saw the government cancelling its big war contracts with the General Electric, the Westinghouse and other similar companies after Japan collapsed, I became fearful. Although these companies would save considerable through the elimination of the excess-profits taxes, yet I doubted if new peace business would offset the loss of war business. The more, however, I study these "packaged" mortgages the more hopeful I become for the electrical appliance stocks. Certainly, if this new form of loaning money to home builders becomes

general, it should be a boon to the electrical equipment industry. Home owners will buy much more equipment and much better equipment. Furthermore, this trend will make housework lighter, conserve and protect foods, and perhaps even reduce the cost of living. One other thought: This expansion should greatly increase the demand for fix-it shops which is a suggestion to returning G. I.'s.

## Red Cross Steps Up First Aid Program

More Need For First Aid Now Than During War, Committee Chairman States

Announcing two new first aid classes which are already scheduled to begin, Mrs. Plummer D. Gibson, chairman of the Red Cross First Aid committee, states that other classes are being arranged for both the afternoon and evening in order to meet the growing need for trained first aiders.

"Considering auto accidents alone, the need is terrifying," Mrs. Gibson points out. "In 1944, when travel was extremely limited, the death toll from auto accidents was 95,000 persons with another 9,800,000 being injured. After the end of gasoline rationing in 1945, the accident rate increased by leaps and bounds."

Red Cross first aid training aims to develop knowledge and skills essential to immediate care given to the victim of an accident or sudden illness until a physician may arrive. During the war, the threat of enemy bombings gave impetus to the program, but now the need is just as serious in industry and on the highway, as well as in the home.

Mrs. Gibson's class is scheduled to begin on Thursday afternoon, from 1:30 to 3:30, with a second class being made up of student nurses at the New Castle Hospital School of Nursing.

## Question Right Of Government To Seize Site

WASHINGTON, Feb. 8.—(INS)—Members of Congress today seriously questioned the legal right of the federal government to force Connecticut landowners to sell their property to the UNO for the organization's future permanent home.

Some expressed the view that neither the federal government nor the states of Connecticut or New York could exercise their right of eminent domain for the purpose of turning the land over to an international body.

Others, while questioning the constitutionality of such a move, felt that the government would not take the step without first obtaining authorizing legislation from Congress.

Meanwhile, Rep. Clare Boothe Luce (R) Conn., who represents the Stamford-Greenwich area chosen by a special UNO commission, urged that any agreement upon the matter should be submitted to the Senate as a treaty.

Such a treaty would require a two-thirds majority of the upper body for ratification.

## Western Electric Company Makes New Wage Offer

NEW YORK, Feb. 8.—(INS)—A new Western Electric company offer was on its way today to the striking Association of Equipment Workers, with apparently small hope of acceptance.

Negotiations which were resumed January 18 after AEW picket lines disrupted national long-distance telephone service for three days were halted last night in New York. Glen C. Thornton, union vice president, left for union headquarters in Chicago, taking the company's latest offer which he described as "unbearable."

Chief stumbling block reportedly was maintenance of union membership a dues check-off, a no-strike clause and retroactive date for wage increases.

Thornton said he would relay the company offer to the union's 15 locals covering 43 states, but said a final decision might be delayed until the parent National Federation of Telephone Workers meets in Memphis February 18 to act on 30-day strike notices filed last month by 48 affiliated unions.

Battlefield epidemics, common in previous conflicts, were non-existent during World War II.

## Russians Charge Wanton Murder In Nazi Trials

NUERNBERG, Feb. 8.—(INS)—Uniformed Russian officers and hard-eyed plainclothes police blocked every exit from the Nuernberg courtroom today as Soviet prosecutors hurled their charges of wanton Nazi murder and destruction.

Lieut.-Gen. Roman Rudenko charged the Nazi hierarchy with responsibility for killing fifteen million children rendering 25 million persons homeless, destroying 70,000 villages, 40,000 hospitals and 45,900 miles of railroads.

He estimated the material cost of Nazi barbarity in Russia at 679 billion rubles.

Rudenko declared that six million buildings were destroyed during the Wehrmacht's invasion of his homeland.

Citing the Hague convention and the Kellogg pact as legal bases for the present trial, Rudenko declared: "When criminals conspire to commit murder, all are guilty regardless of their role."

He charged that the attacks on Czechoslovakia, Poland, Yugoslavia and Russia were planned months beforehand by Hitler and his staff.

He charged the Nazi hierarchy with responsibility for killing fifteen million children rendering 25 million persons homeless, destroying 70,000 villages, 40,000 hospitals and 45,900 miles of railroads.

## Sun Spots Halt Transmission To European Points

NEW YORK, Feb. 8.—(INS)—Press fireless reported today that its transmission to all points in Europe have been completely stopped as a result of sun spots.

The electronic interferences, resulting from storms near the sun, began yesterday, blocking out for hours radio contact with many points in Europe and the far east.

Two dark spots on the sun were photographed by the New York Museum of Natural History for the Hayden planetarium. Robert R. Coles, associate curator at the planetarium, estimated that one spot is 60,000 miles in diameter, more than twice the circumference of the earth.

Planetarium officials said the sun spots are the largest ever known and are expected to last 12 to 14 days.

## Chinese Laundryman Wants Bonds Or His Money Tells Judge

PITTSBURGH, Feb. 8.—(INS)—Tom Yee, Pittsburgh laundry owner, gave \$2,115, his life savings, to Howard Ramsey to purchase war bonds in 1944—and he is still waiting for the bonds.

In criminal court, Yee testified that he gave Ramsey \$1115 on May 2, 1944 and later added another \$1,000.

Ramsey, a watchmaker, charged with fraudulent conversion of money, denied the transactions.

Presiding Judge Samuel A. Weiss asked Yee if he knew what the bonds were for, and Yee replied: "Yes. They were for fighting."

Speaking at a dinner honoring 25-year veteran employees, Douglas declared:

"When reconversion is completed, the present shortage of hotel accommodations will continue in cities where there is trend to travel. And there will be need of a new hotel. We are studying such areas for a coast-to-coast expansion program."

Douglas indicated that a definite decision on expansion plans might be available within two months.

## T-5 R. C. Winger Given Bronze Star

Radio Operator Receives Citation For His Meritorious Work In Europe

T-5 Robert C. Winger, son of Mrs. Catherine Winger, 12 McCleary avenue, has been awarded the bronze star medal for his achievements while serving with the fifth division in Europe. The citation, given the local by Major General Albert E. Brown, reads as follows:

"For distinctive service in connection with military operations against the enemy during the period of March 22, 1945, to May 1, 1945, in Europe. During this period Technician Winger served as a radio operator and performed his duties in an outstanding manner. Whenever an emergency arose he was always the first to volunteer his services. On many occasions he remained exposed to intense enemy fire and assisted in establishing essential radio contact. His total disregard for personal safety and courageous devotion to duty reflect great credit himself and to the armed forces."

### Varied Reactions To Fact-Finding Panel Proposal

Report Recommendation Of 16 Cents Per Hour Increase To Packinghouse Workers

CHICAGO, Feb. 8.—(INS)—A recommendation by the government's meat fact-finding panel that packinghouse workers be granted a wage increase of 16 cents an hour brought varied reactions today from the workers' unions and the meat industry.

The AFL Amalgamated Meat Cutters Union announced it will recommend that its local accept the raise, but will continue to seek a guaranteed minimum weekly wage of \$36.

The CIO Packinghouse Workers Union announced through its president, Lewis J. Clark, that a national wage-policy conference of the union's representatives will be held in Chicago next week for action on the fact-finders' recommendation.

Labels Boost Unfair

The American Meat Institute issued a statement saying the proposed wage boost was "unfair" to the industry and "ignores the provision of the price stabilization act as amended in 1945, requiring a reasonable profit margin be provided meat packers for each species of livestock."

Spokesmen for most of the leading meat packers said their firms would not comment on the 16 cents proposal until the fact-finding board's report is studied thoroughly.

One of the spokesmen said he did not believe the increase would be acceptable to the packers "until they are given definite assurance of government action to enable them to meet the cost of wage increases."

### Alfred Smith Jr. Likes Army Life

SAN FRANCISCO, Feb. 8.—(INS)—Major Alfred E. Smith Jr., son of New York's late famed "happy warrior," indicated today he'd rather stay in the army than turn to politics.

Maj. Smith arrived at San Francisco's port of embarkation after 18 months of overseas duty. He was aboard the USS General Haan which brought 3,505 army, navy, Red Cross and civilian employees from Manila.

Smith commented after his arrival: "Politics are definitely out. I'd like to stay in the army."

He entered the army as a New York National Guard captain in 1941, was staff judge advocate for the 13th fighter command, serving at Guadalcanal, New Guinea and Palawan and Luzon in the Philippines.

When a boy in ancient Rome reached the age of 12, he accompanied his father to the market to receive instructions in the art of good buying.

## Amish People Extend Aid In Clothing Drive

Lawrence County Amish  
Donate 1482 Articles,  
256 Pairs Of Shoes  
In Drive

### AMISH HISTORY IS INTERESTING

Amish people of Lawrence county acted under the direction of their bishops to collect clothing and shoes, and Thursday, Jan. 31, they met at the Victory Collection headquarters and packed 16 boxes containing 1482 articles of clothing and 256 pairs of shoes.

Bishop Yost J. Byler was in charge of the group, assisted by Isaac Byler, from Enon Valley and nine women and men from West Side congregation, New Wilmington.

Bishop Gideon Wengard was in charge of Volant collections, while Bishop Ben J. Shetler looked after the Enon Valley contributions.

#### Amish History

The Amish in Lawrence county consists of about 130 families under three bishops. West Side, New Wilmington Bishop Yost J. Byler; East Side or Volant, under Bishop Gideon Wengard; and then Enon Valley, under Bishop Ben J. Shetler.

The ancestors of most of these people came from Mifflin county, Pennsylvania, in 1845, when Lawrence county was a part of Mercer county.

The history of the Mennonites and Amish is very closely connected, and stems back to Switzerland, where in 1525, Conrad Grebel and others rounded the basis of their church according to a statement of Dr. Harold S. Bender, president of the Mennonite Historical society, Goshen, Ind.

#### Found Church

Obbe Phillips and Menno Simons founded the church in Holland, 1533-1536, and then the split came in 1697 when the followers of Jacob Amen called themselves Amish. In Holland, they were termed "Omish," "Obenites," and in Switzerland "Hookers," and in America the early pioneers were called "Creelders" or "Kreelders" from the city of Creld in Germany near the Netherlands border.

In Smith's history of the "Mennonites of America," he says, "In 1677 Penn petitioned the Elector of Palatinate for milder treatment of the Quakers. It was the desire, then, for fuller religious freedom, and for exemptions from heavy burdens of taxation and civil obligations which they could not accept, that led the first Mennonite and Quakers to emigrate from Germany and Holland to Pennsylvania."

#### Receive 5,000 Acres

Jacob Telner, a Mennonite merchant of Creld, but at that time a resident of Amsterdam, and in May, 10, 1682, William Penn, conveyed to Jacob Telner, of Creld, and others, 5,000 acres in Pennsylvania. The doctrine of the Mennonites and Amish is based on the Synod of Dort, 1623, and adopted in Dordrecht, Holland, in 1632.

The split of the Amish from the Mennonite church was on the question of strict enforcement of the ban—the practice of "meldung" or "avoidance" by which the Amish to this day administer discipline to erring ones.

The Amish settlements in Lawrence and Crawford counties, Pennsylvania, along with Holmes, Stark, Wayne, and Tuscarawas, in nearby Ohio, constitute the largest group, even greater than in Lancaster county.

#### APPLY FOR LICENSE

Lawrence Lepardi, of Ellwood City; and Virginia Borsani, of Beaver Falls, have applied for a marriage license in Beaver county.

## Servicemen Rename Campus Buildings; Coeds Bewildered

NEW WILMINGTON, Feb. 8.—Ex-servicemen who entered Westminster College at mid-year have wasted little time in repressing the campus to their understanding.

Cafeterias are now "mess halls" while the dean's office has become the "orderly room." The science building is called "ordnance," College Hall, men's dormitory housing most of the GIs, is the "barracks" and the gymnasium is referred to as the "recreation hall."

Even the town has not escaped the rechristening to GI terminology. The Grille, favorite spot of students, has been named the "PX" and the corner delicatessen is now the "commissary."

Co-eds look upon the terminology in bewilderment and are reluctant to hear their dormitories called the "WAC area" and labeled "out of bounds."

## Alumni Secretary Will Be Selected For Westminster

NEW WILMINGTON, Feb. 8.—Members of the Alumni Council of Westminster College will meet with Alumni president, H. Russell Weller, of Cleveland, on campus Saturday afternoon to consider the appointment of a permanent alumni secretary from the applications received.

Alumni Council members are Miss Laura Turner, Wilkesburg; Norman W. Igo, New Wilmington; Mrs. Charles Rummell, of 135 East Sheridan avenue, New Castle; Daniel M. Kelson, Wilkesburg; John B. Lewis, Sharon; William D. Armour, Pittsburgh; and Donald O. Cameron, chairman of the music department at Westminster.

## Wife From Hawaii Is Coming Here

Through an article in the Chicago Daily News, word is received here of the arrival of Mrs. Joseph Marcella, young Hawaiian-born wife of a New Castle man.

Mrs. Marcella, a slender brunette with Portuguese ancestry, and her two children, three-year old Joseph and one-year old Estella, were traveling on a Burlington troop-train when she was interviewed by a Daily News reporter in Chicago's Union station. This is her first trip to the United States.

## Jack And Greco Battle Tonight

Beau Jack Meets Tough And Ready Greco In Madison Square Garden

By CASWELL ADAMS  
(International News Service Sports Writer)  
NEW YORK, Feb. 8.—(INS)—When those twenty rich golfers sat around the locker room of the Augusta National some years back and chipped in \$25 each to send the locker boy to the fistic wars, they all considered it a prank. Now it's big business.

Because the locker boy was a stubby Negro named Beau Jack, who arrived on the big apple and proceeded to become one of the best attractions ever developed in boxing—at least among small men. The twenty golfers have long since been repaid their original investment, but they refuse to take dividends and, instead, take complete charge of all Beau's earnings.

**Expert Good Fight**  
And tonight they will have a lot more money to worry about and invest for the hustling little Georgian. Because tonight he will chamber between the Madison Square Garden strands to meet slugging Johnny Greco, Canadian, in a ten rounder which is fondly expected by Mike Jacobs to draw \$140,000 into the Jacobean coffers.

The Garden record for gate booty for small men is the \$132,823 mark hung up by St. Patrick's day, 1944 when Beau Jack whipped the late Bummy Davis. The way the citizens have been lining up to buy tickets all week and the amazing interest around town in the fight are the reasons why Jacobs expects to shatter that money-making tonight.

The two welterweights are the crowd pleasing kind. Beau Jack never stopping attacking and the Canadian never stopping trying to land one solid right hand thump to the whiskers. Whether Greco can land against the approaching Jack is the question.

## Villanova Cards Miami For Game

PHILADELPHIA, Feb. 8.—(INS)—Villanova college announced today that it will play the University of Miami a night football game in Philadelphia on Friday, November 1. The announcement came from Rev. Games will be played with the following teams: U. S. Merchant Marines, Army, Navy, Marquette, Holy Cross, Georgetown, Boston college, and Detroit.

## Welsh Will Coach Waynesburg Passers

WAYNESBURG, Pa., Feb. 8.—(INS)—Waynesburg college today announced that Raymond Welsh, former grid ace, has been named athletic director.

Welsh has been athletic director of the Bridgeton, N. J., high school. At the same time it was announced that Asa G. Wiley, former Yellow-jacket football and wrestling star, will become football and wrestling coach and assistant athletic director.

Welsh will coach basketball and track.

## Pirates Take Over Oil City Franchise

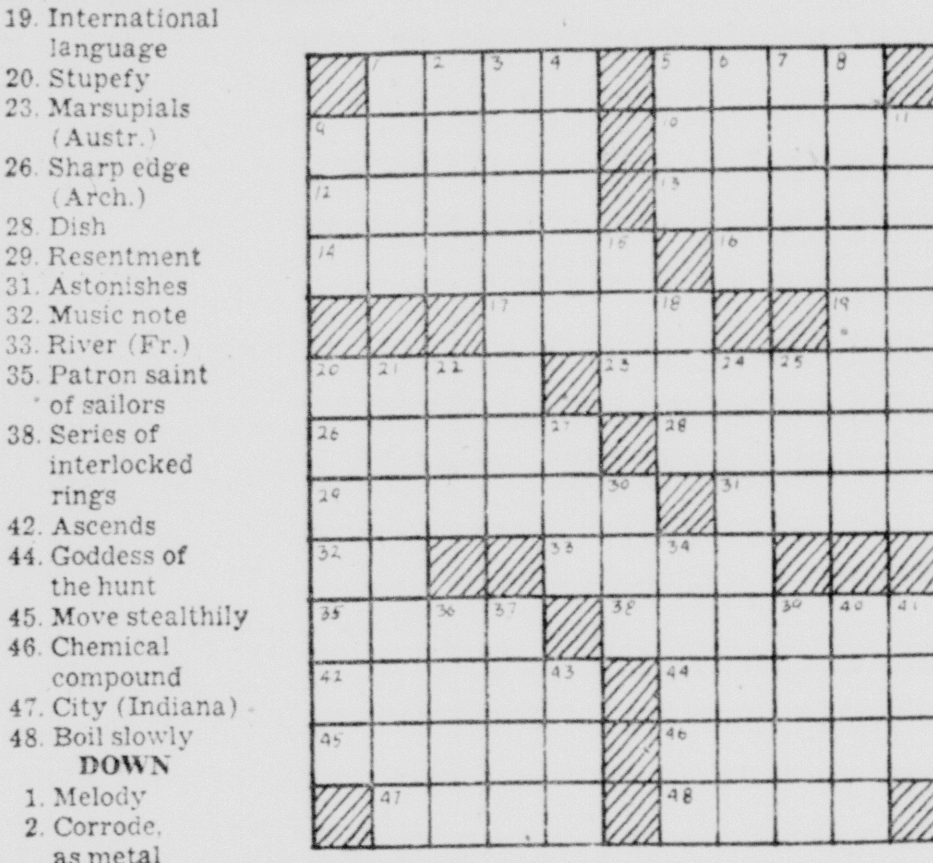

PITTSBURGH, Feb. 8.—(INS)—Oil City is headed for a berth in the reorganized Mid-Atlantic league, with the Pittsburgh Pirates as the parent club.

Sportsmen of Oil City met today with Bob Price, Pirate field director, who will confer Saturday with the backers of the class C set-up.

When the new arrangement is completed the Pirates will have affiliations with all classes of the minor loops.
